Wm. L. Garrison Esq.

My dear Sir

24

I should be
very pleased if you could visit
us at Washington, making my
house your home, and look
into our University enterprise.
We now have about 150
pupils, one college class - a
law class of 16 & eight in the
Medical class - the rest in the
preparing & normal department.

We already have a fair endowment
by the size in our land. are out
of debt and are gradually
developing. Your advice, criticism
& aid would please me much -
Yours & affectionately

O. O. Howard
